Named Beds and Cots.

It would be difficult to suggest a better means of keeping in perpetual memory a relative or friend than the naming of a bed or cot.

A celebration of an event or a thank offering can be marked by the endowment of a bed or cot in the Royal Victoria Infirmary.

A bed may be named by a donation or legacy of £1,000 and a cot by a donation or legacy of £500. These amounts should be nett and not subject to any deductions for tax.

Every year approximately 26 patients occupy each bed or cot and money received for an endowment fund is invested and the income applied towards the maintenance of the bed or cot.

A tablet appropriately worded is affixed to each named bed or cot.

For list of beds already endowed see pages 66 to 80.

OVER.

IMPORTANT
NOTICE TO SUBSCRIBERS.

ALL SUBSCRIBERS TO THE HOSPITAL WHO PAY INCOME TAX GIVE THEIR SUBSCRIPTIONS OUT OF INCOME UPON WHICH THEY HAVE ALREADY PAID TAX, BUT THE HOSPITAL CAN RECOVER THE TAX, AMOUNTING TO ONE GUINEA FOR EACH GUINEA SUBSCRIBED SO LONG AS THE INCOME TAX REMAINS AT 9/- IN THE £.

INCREASE OF SUBSCRIPTIONS BY RECOVERY OF INCOME TAX.

By virtue of the Income Tax Act, 1918, and subsequent Finance Acts, it is possible for the Hospital to effect an increase of its income by the recovery from the Inland Revenue Department of the Income Tax that has been paid by its subscribers in respect of their subscriptions. To enable the Hospital to do this, however, it is necessary that each subscriber should enter into a legally binding contract to pay to the Hospital an annual subscription of definite amount during a period of at least seven years.

The agreement is terminable by death, so that a subscriber's estate would not be liable for subsequent payments of the subscription.

Table showing the benefit accruing to the Hospital from seven year agreement so long as income tax remains at 9/– in the £.

The House Committee have to report that the year under review again shows an increase over previous years in the volume of work done; the number of in-patients treated having exceeded all previous figures. Compared with last year there is an increase of 677, although

the number of available beds remains the same. The daily average number of beds occupied was 605.1 which represents 90 per cent. of the total beds available. The daily average has on many occasions been exceeded in consequence of the heavy demands from accidents and other cases, and as hitherto, extra beds have been put up to meet these emergencies.

It is a matter of great regret that the beds are so heavily taxed for urgent cases as to leave a comparatively small margin for cases of a less serious character.

The number of applicants awaiting treatment in the wards is still at a high figure and this obtains in spite of the Infirmary's resources being used to their utmost capacity.

Taking a comparison with 10 years ago, the number of in-patients treated has risen by 30 per cent. which has in turn lowered the average length of stay of each patient from 14.2 days to 11.42 days.

New out-patients show an increase of 7,510 over the previous year, and out patient attendances an increase of 3,314.

OPERATIONS.

	In-Patients.	*Out-Patients.*	*Total.*
Surgical	6,837	4,853	11,690
Gynæcological	1,240	81	1,321
Throat, Nose and Ear	818	227	1,045
Ophthalmic	602	205	807
Skin	13	369	382
Orthopædic	1,240	1,140	2,380
Dental	401	—	401
	11,151	6,875	18,026

Operations show an increase of 1,868.

The pressure of work in the Infirmary is no doubt due in part to the fact that the area is gravely under-hospitaled; there are not enough beds for the treatment of the urgently ill, and in consequence more work is thrown upon the Infirmary than it can reasonably cope with.

BABIES' HOSPITAL AND CHILDREN'S DEPARTMENT.

The Babies' Hospital and Children's Department continue to give important and valuable service within the Region. During the year 1947, 1,649 patients were admitted, an increase of five over 1946, and include a wide range of medical and surgical conditions. In the Out-patient Consultation Department 9,741 attendances were recorded, and of this number 4,660 were new out-patients. In addition to these out-patient clinics the Department has continued its special clinics, follow-up clinics, Speech Clinic and Child Welfare Clinic. The value of this consultation service and the special clinics cannot be estimated in mere numbers of attendances, but it is impressive to observe that about 30,000 persons are passing through this Department annually, including relatives accompanying the patients. The Department carries the main burden of the clinical work and the consultation work of the region. The daily reception of patients and the urgent nature of the illnesses impose heavy duties on the Department.

The adaptation of the premises belonging to the Royal Victoria Infirmary at 34 and 35 Leazes Terrace for the accommodation of the Babies' Hospital Unit within the Children's Department are nearing completion. These premises will provide accommodation for 12 babies and eight mothers.

The Balance Sheet and Income and Expenditure Account of the Hospital are shown on pages 116 to 119 of this Report.

PRINCESS MARY MATERNITY HOSPITAL.

The work of the Princess Mary Maternity Hospital has been carried on with difficulty over the past few years and great credit is due both to the medical and to the nursing staff for their high standard of efficiency and the successful results in the treatment of the mother and the new born baby. In this Hospital much important progress is being made in obstetric and in pædiatric practice.

The number of in-patients treated during the year was 2,882, a decrease of 93 as compared with the number in 1946.

The total attendances at the Ante Natal Clinic were 9,186 which shows a decrease of 3,753 on the figures for the previous year. 1,096

patients attended the Post Natal Clinic, a decrease of 167. 2,368 babies were born during the year, an inrease of 17 on the figures for 1946.

The internal structural alterations and renovations to the Ante Natal Clinic at the Jubilee Road premises have now been completed and the clinic is in use. These alterations have resulted in substantial improvement in the level of accommodation available to the Obstetrician for consultation and have given improved standards of privacy and comfort for the patient.

Work on the alterations to the North Road premises have begun and the work is making good progress.

Dr. C. C. Bowley, M.B., B.S., has been appointed Resident Obstetric Officer in succession to Dr. T. Wilson Roddie, M.B., Ch.B., B.A.O., D.R.C.O.G.

Owing to the shortage of accommodation for Nurses in the Royal Victoria Infirmary and the necessity for increasing the nursing personnel to meet modern requirements, Framlington House, Framlington Place, the gift of Mrs. Featherstone Fenwick, has been furnished and equipped as a Student Nurses' Preliminary Training School. This house provides accommodation for 20 student nurses with a Sister-Tutor in charge.

Other properties in Framlington Place have been purchased and will be utilised as Hostels for Nurses. By the acquisition of these properties it is hoped that to some extent the pressure on the accommodation in the Nurses Home will be relieved. This, however, is only a temporary expedient and in no way effects the policy that at some future date extensions to the present Nurses Home will be necessary and should be accomplished as soon as building operations become possible.

Colonial Student Nurses.

The House Committee have agreed to the introduction of Colonial Student Nurses to the Preliminary Training School, provided that the numbers do not exceed four to six at any one time.

The total number of patients transferred from the Royal Victoria Infirmary to Castle Hill Home during the year was 2,033 compared with 1,987 in the previous year, an increase of 46.

The average number of beds occupied was 81.8 with a maximum of 100 and a minimum of 46.

Castle Hill Convalescent Home still continues to be used as a medical and surgical annexe of the Royal Victoria Infirmary and its accommodation is most valuable in relieving the pressure on the beds in the Infirmary. The patients sent to this Home derive much benefit from its ideal surroundings.

FINANCE.

During the year 1947, the Finance Committee has been continously presented with requests for funds for additional accommodation, equipment and staff to meet the needs of the Hospital as a modern centre of medical treatment and clinical training of Doctors and Nurses; additional funds have also been required to meet the continuing increase in costs of available supplies of labour and material. These requests besides making a call for capital expenditure also result in increasing the annual cost of maintaining the hospital. To meet expenditure at the present necessary level, the whole basis of financing the hospital requires revision.

On 5th July, 1948, the people will be required to make payments for hospital services by means of weekly insurance contributions and by central taxation. The Finance Committee has not yet any information as to the amount which will be direted to the Royal Victoria Infirmary for cost of maintenance after 5th July, 1948. Until this date the Infirmary will continue to rely on its present sources of income and this income is now insufficient to meet the needs of the hospital.

In these circumstances, the Infirmary is fortunate to have had available for use during the past two years surplus funds which have been carefully husbanded in a development fund. These funds have been used to meet the deficiency of income required to finance ordinary maintenance and have also been used to provide some of the more urgent items of additional accommodation and equipment needed.

During the year 1947, £377,261 7s. 11d. was spent on ordinary maintenance and £9,659 8s. 5d. on renewals and improvements of equipment, a total expenditure of £386,920 16s. 4d. compared with £312,489 1s. 4d. in the year 1946. To meet this expenditure, income of £333,214 9s. 8d., an increase of £73,918 over the ordinary income of 1946, was received. The 1947 total includes income from legacies and extraordinary sources, the equivalent of which in previous years was retained in a development fund for capital purposes.

Even after including legacies and other extraordinary revenue, the total income of £333,214 9s. 8d. was £53,706 6s. 8d. less than expendi-

ture. To meet the deficiency the remaining available balance of £4,047 17s. 3d. has been used from general funds and an amount of £49,658 9s. 5d. has been transferred from the devolopment account.

In addition to the expenditure of £386,920 16s. 4d. already mentioned, £55,502 0s. 3d. has been spent out of the development fund on premises and on equipment needed to extend the services of the Royal Victoria Infirmary; after expending this sum and transferring £49,658 to meet the revenue account deficit, there remains in the development fund a balance of £53,399 13s. 6d., which forms the last remaining reserve of the Infirmary, out of which to make good any further revenue deficits, or pay for any further capital improvements before 5th July, 1948.

During 1947, the Infirmary has received legacies and endowments totalling £64,337 10s. 1d. of which £16,515 1s. 4d. has been added to the endowment fund; £30,000, being a balance remaining on the Northumberland-Durham War Needs Fund which the Trustees of that fund, with the permission of the Charity Commissioners, directed to the Infirmary to assist in the provision of new ward accommodation to be named the Northumberland and Durham War Needs Fund Wing is being held in an accumulating trust fund.

The total of the Infirmary's endowment fund at 31st December, 1947, was £419,729 19s. 5d. This fund, together with other assets of the Infirmary will vest in the Minister of Health on 5th July, 1948, but as the Infirmary has been designated under the Health Act, a teaching hospital, the Infirmary endowment fund will remain within the control of the new Governing Board of the Infirmary and will be available for purposes connected with the teaching hospital.

A BRIEF HISTORY OF THE ROYAL VICTORIA INFIRMARY.

As this may be the last published Annual Report of the Royal Victoria Infirmary as a Voluntary Hospital, prior to the Minister of Health taking control, it may be of interest to outline briefly some of the important events in the history of this premier hospital of the north.

The Infirmary started in a house in Gallowgate on the 23rd May, 1751, with 23 beds. Out-patients were also seen. The founding of the Infirmary was the direct result of a letter signed " B.K." which appeared in the *Newcastle Courant* on Saturday, 5th January, 1751, in which the writer urged the necessity of " founding an Hospital " in the Town. On the 5th September, 1751 the Foundation Stone of the Infirmary on the Forth Banks was laid by Bishop Butler, Lord Bishop of Durham, on ground given by the Corporation, and on the 8th October, 1753, the Infirmary with 90 beds was opened for the reception of patients. It is recorded that no charitable undertaking had ever begun in Newcastle with greater enthusiasm than the building of the Infirmary.

In 1801 at the end of its first 50 years of existence, a proposal was made for the reconstruction and extension of the Infirmary, and additional wards were added to the building. The population of Newcastle and the district for which the Infirmary was founded continued to grow and in 1830 further extensions to the Infirmary were necessary, again in 1850 further extensions were proposed and in 1855 the Dobson Wing was opened. The bed accommodation of the Infirmary was now 220.

In 1885 a Special Committee with Lord Ravensworth as Chairman was appointed to carry out a scheme for the enlargement of the hospital. The Medical Staff were not in agreement with this scheme and recommended that a new hospital should be built on another site, but in view of the urgent need for temporary provision, the medical staff agreed this should be supplied without delay, and a temporary block for 50 beds as an out-shoot from the main building was erected. The new wards were opened for patients in the ensuing October by the Earl of Ravensworth, after whom they were named. The opening of the Ravensworth Wards greatly relieved the pressure in the hospital. They were occupied by male patients, the withdrawal of whom from the main building gave space for fifteen additional female patients, for three suitable wards to constitute a children's department, and for a small addition to the nurses' accommodation. The Infirmary now had accommodation for 270 patients.

This was the last addition to the Old Infirmary for in 1896 it was decided at a meeting in the Council Chamber, Town Hall, to build a new Infirmary. On 16th June, 1887, the Infirmary was designated " Royal Infirmary " by permission of Her Majesty Queen Victoria.

On 20th June, 1900 the Foundation Stone of the present Royal Victoria Infirmary on the Castle Leazes site was laid by Albert Edward, Prince of Wales, K.G., Patron of the Hospital, as the representative of Her Majesty Queen Victoria. The Queen had already commanded that the new Infirmary should be called the " Royal Victoria Infirmary for the Counties of Newcastle upon Tyne, Durham and Northumberland."

The Royal Victoria Infirmary was opened by His Majesty King Edward VII., accompanied by Her Majesty Queen Alexandra on the 11th July, 1906.

The new Infirmary provided accommodation for 400 in-patients, and cost, for building, equipment and furnishings, in the region of £300,000.

Various extensions have been made to the original building among which are an extension to the Nurses' Home named the Runciman Wing, the Leazes Hospital (Pay-bed Section), Block of buildings for Resident Medical and Surgical Staff, Orthopædic Department, two new Wards " Rutherford Morison " Ward and the " Innes-Hopkins Memorial " Ward.

In 1934 Castle Hill Home, Wylam-on-Tyne, was gifted to the Infirmary by Mr. Geoffrey Stirling Newall, O.B.E., D.L., J.P., in memory of his father and mother. This residence was converted into a hospital annexe of the Infirmary and had accommodation originally for 50 patients.

In 1938 an extension provided accommodation for a further 50 patients at Castle Hill.

The total bed complement of the Infirmary including Castle Hill, Wylam, and the Leazes Hospital is now 810.

This brief sketch of the history of the Infirmary would be incomplete without reference to the part it has played as a School of medical training. When the School of Medicine was established in 1834 the career of the Infirmary as a teaching hospital began and since this date the Royal Victoria Infirmary as a centre of medical education has steadily grown in importance. It is now one of the largest Schools of Medicine in the Country.

In May 1948 the Royal Victoria Infirmary completes 197 years as a Voluntary Hospital and its record of service to the North-East is one of which it can be justly proud.

NATIONAL HEALTH SERVICE ACT.

The Governors will remember that the National Health Service Act was passed by H.M. Government on 6th November, 1946, with the express purpose of providing for the establishment of a comprehensive health service for England and Wales. Reference has been made at various Courts of Governors to the way in which this Act will affect the Infirmary.

It is now understood that the appointed day when the Minister of Health will assume control under the Act is 5th July, 1948.

Section 6(1) of the Act states that subject to the provisions of the Act, there shall, on the appointed day, be transferred to and vest in the Minister by virtue of the Act all interests ir or attaching to premises forming part of a voluntary hospital..... In simple terms the section means that the premises and equipment of the Infirmary will be transferred from the control of the present Governors to the control of the Minister of Health on the appointed day.

After consultation with the University of Durham and the Newcastle upon Tyne Regional Hospital Board the Minister proposes that the following hospitals should comprise the teaching hospital for Newcastle upon Tyne :—

Royal Victoria Infirmary, Newcastle upon Tyne, including Castle Hill Convalescent Home, Wylam.
Princess Mary Maternity Hospital, Newcastle upon Tyne.
Newcastle upon Tyne Dental Hospital.
Babies' Hospital, Newcastle upon Tyne.

These hospitals, having been designated as Teaching Hospitals, shall, as from the appointed day, be deemed for the purposes of the Act to be a single hospital, and the Minister, in accordance with Part III of the Third Schedule of the Act, shall constitute a Board of Governors for the purpose of exercising functions with respect to the administration of the hospital or group.

The Board of Governors of this teaching hospital shall consist of a chairman appointed by the Minister and such number of other members so appointed as the Minister thinks fit, and of those members :—

(*a*) not more than one-fifth shall be nominated by the university with which the hospital is associated ;

(*b*) not more than one-fifth shall be nominated by the Regional Hospital Board for the area in which the hospital is situated ;

(*c*) not more than one-fifth shall be nominated by the medical and dental teaching staff of the hospital ; and

(*d*) other persons shall be appointed after consultation with such local health authorities and other organisations as appear to the Minister to be concerned, including, in the case of the original members of the Board of Governors of a teaching hospital designated before the appointed day, the governing body of any voluntary hospital comprised or to be comprised in the teaching hospital.

The House Committee are also grateful to all friends who have assisted in entertaining the patients, and all those who have so generously helped in other ways.

The House Committee wish to repeat the thanks expressed in previous Annual Reports to the Medical and Surgical Staff, the Matron and Nursing Staffs of the Princess Mary Maternity Hospital for the services they have rendered to the hospital during the year.

SUBSCRIPTIONS COMMITTEE REPORT.

The Subscriptions Committee are pleased to report that voluntary contributions to the Royal Victoria Infirmary have been maintained during the year 1947 at the level of the two previous years.

The total contributions for the year 1947 compared with the total for the two previous years are as follows: —

	£	s.	d.
1947	176,314	18	10
1946	180,219	9	8
1945	171,628	3	3

The total collected for the year 1939 was £74,344 10s. 9d. Thereafter voluntary contributions increased each year until 1946 when a record of £180,219 9s. 8d. was received, including £8,005 1s. 11d. from the King's College Students Rag which had been renewed that year after being in abeyance during the war. For the year 1947 the proceeds of the Students' Rag were divided equally between the Princess Mary Maternity Hospital and Newcastle Dental Hospital, and these contributions do not form part of the total of £176,314 18s. 10d. for 1947.

The Subscriptions Committee are pleased to report that the contributions of workpeople for the year 1947 reached a new high level, the amount received, £126,788 3s. 7d. being over £4,000 greater than the previous record amount in the year 1945. This increase in contributions is mainly due to the continued enrolment of additional subscriber groups of employees most of them engaged in relatively small concerns throughout the district.

Also reaching a new high level was the amount received in subscriptions and donations from firms, companies and other employers.

There had been a prospect of a reduction in firms' subscriptions owing to the loss of contributions from the Colliery Companies transferred from private ownership to the National Coal Board. Private owners' contributions for the last few years totalled about £4,500 per annum and the Subscriptions Committee were very pleased when the National Coal Board undertook to continue subscriptions to the Infirmary by making a contribution of £4,500 for the year 1947.

There has been a small reduction in personal subscriptions during the year as some subscribers have withdrawn their support in view of the coming Health Service. There has been also a reduction of income from efforts in aid of the Infirmary, from district collections, and from collecting boxes. Some voluntary workers in aid of the Infirmary have transferred their efforts to other causes in view of the proposed National Health Service, but the present reduction of income is chiefly due to the severe weather in January, February, and March when many dances, concerts and collections in aid of the Infirmary were cancelled owing to snow storms.

The prospect of an early introduction of the National Health Service has made many contributors consider withdrawing their financial support. The Government is not yet collecting contributions or taxation for the hospital service and will make no general State contributions to voluntary hospitals until the National Health Service is introduced on the 5th July, at which date increased National Insurance contributions will become payable by the general public. Until 5th July the Infirmary relies upon voluntary contributions for its continued maintenance and existing contributors should continue their full support until that date. After 5th July there may well be opportunity for Voluntary contributions to the Royal Victoria Infirmary but until some details of the Government's proposals for the financing of the Infirmary are known it is not possible to determine in what way voluntary contributions can be best employed in the interest of the hospital.

While recognising that the present volume of voluntary income is no longer adequate to meet the Infirmary's needs the Subscriptions Committee is nevertheless very appreciative of the continued interest and support of its very many subscribers and wish to take this opportunity of conveying to all concerned their sincere thanks for these voluntary contributions given to enable the Infirmary to continue its object of providing free treatment at the Infirmary for the Sick and Lame Poor of the Counties of Newcastle-upon-Tyne, Northumberland and Durham.
